CONTEST SOAPBOX

You asked for it! Here it is!

I'm Proud for the Two contacts even they where only 12 miles away. I can wait till the Sun Spot get better. The only good thing was the Super Bowl we Won. Go Steeler K3BDO - Making contacts was just like pulling hen's teeth. K5FBS - Poor band condx. Sunday afternoon an opening towards the west coast. KA0EIC - Had some propogation Fri PM but nothing (except Cliff on Sat AM) KB0CQ - Terrible conditions! N1API - 2006 Winter Phone QRT Party, oops QSO Party, and nobody came. Long live 10 Meters N2EGO - Interesting band conditions for this part of the sunspot cycle. N7VS - These were the worse conditions I've experienced. Band was usually noisy and what few signal were on the air were very weak. NA9A - Hi 10-10'ers, The lack of propogation up here in Canada made this another frustrating contest. Decided to send this log in so that everyone could see that I gave it a try. Thanks for all your efforts. VE5BF - Thanks. I did better than I thought I would, but maybe the best or next best in Kansas!! :-)

W0HIK - N0WM did better for Gateway! He caught an opening when I was called to the bathroom. Thank goodness I only spent 6 hours on this one! Hi Hi! Sob Sob!!!! W0RTV - I couldn't "buy" a NY contact even though we have millions of people in ground wave range. This was the worst I have ever seen local support of a 10-10 phone contest, and I've been doing these since 1969! WA2SUH - Band was not bad on Friday. Bad on Sat. Bad on Sun until near the end. WA6POZ - I am afraid that this years 10-10 Winter QSO Party will have poor results at least from MI! Perhaps for two reasons; namely; poor propagation and people watching the hype of the Super Bowl! I ran 200 watts this year. I spent the entire weekend calling CQ while rotating my antenna thru 360 degrees. Then I would pause with my antenna both SW & SE and scan the band from 28.300 to 28.500MHz. The only operator I heard calling CQ was W2BOC but he was too weak to work! I heard very little; even the noise level was low! At times I truly thought something was wrong with my new rig! Of the 26 stations worked five (5) had new 10-10 nos. and four (4) had new VP nos. for me. Dirk HP3BS from Panama told that I was the first 10-10 station he heard calling CQ when I worked him Sunday afternoon; a AZ station later told me that I was the farthest east station they had heard! KC8IM - We were surprised at the number of contacts we were able to make W5GVP
