Statistical reports on membership for the years, June-May, 2000/1 through 2005/6.
Membership breakdown for May for years 2002 through 2006.

A column was added to reflect the total yearly total of new members to show the decline during the past 6 years.

The total number of Life members dropped in April 2006 after doing research on members with expired or cancelled Amateur Radio Licenses, plus a large number that became SK's in April

The number for total Inactive members is the number of accumulated since I started counting in 2003. Research by matching the 10-10 database with the FCC Database and the number may well be over 13,000
