

The Ten-Ten Board of Directors has approved the Spirit of 76 QSO Party, conducted on a trial basis in 2010, to be a permanent operating event. The QSO Party, conducted during a 7 day period around the 4th of July, involves working stations on 6 different modes. The trial event in 2010 was well received and members reported working modes for the first time. The 7 day timeframe gives members time to try out different modes and a better chance of good band conditions.
